SUMMARY

Full-stack developer with hands-on experience building production-grade accounting, CRM, and banking automation systems using Laravel, Livewire, and modern JavaScript frameworks. Specialized in ERP integrations, workflow automation, and data-driven financial platforms that reduce operational overhead. Strong focus on scalable backend architectures and transforming Figma designs into pixel-perfect, production ready React interfaces while delivering reliable, business-oriented software solutions.

WORK EXPERIENCE

Self-Employed / *Freelance Fullstack Developer* / Istanbul, Turkey Jan 2020 - Present

- Delivered full-stack applications using Next, React, and PHP, helping clients automate operations and improve digital sales through e-commerce and product platforms.
- Built web management systems and Java-based automation tools, improving administrative visibility and reducing repetitive operational tasks for clients.
- Designed pixel-perfect user interfaces in Figma and translated them 1:1 into responsive React components used in production.

Bankentegre / *Software and Business Development* / Istanbul, Turkey Aug 2024 - Jun 2025

- Developed and maintained a C#-based automated banking application integrated with LOGO ERP, reducing manual banking operations and increasing reliability in financial data processing.

DBA Danışmanlık ve Teknoloji / *Software Developer* / Istanbul, Turkey Jul 2024 - Jun 2025

- Designed and built a standalone accounting platform with Laravel & Livewire, improving financial workflows and reducing manual accounting operations through automated voucher and reporting modules.
- Developed a modular reporting system integrated with LOGO ERP, enabling real-time financial insights and significantly speeding up internal reporting processes.
- Built a secure, role-based internal CRM platform with Laravel & Livewire, streamlining customer workflows and improving cross-department coordination.

EDUCATION

İstanbul Gelişim University / Istanbul, Turkey Sep 2023 - Sep 2024

- Associate's Degree in Computer Programming Graduated with Honors, GPA: 3.08

Trakya University / Edirne, Turkey Sep 2022 - Jul 2023

- Completed first-year coursework in Mobile Technologies GPA: 3.70
